

## WEEK 2 LAB ACTIVITY

### Objective

Create a **3-page website** that demonstrates understanding of:

- Lists
- Tables (with advanced structure)
- Forms (designed using tables)

### General Instructions

- Create the following pages:
  1. index.html (Home)
  2. timetable.html
  3. contact.html
- All pages must be connected using **navigation links**.

### Page 1: Home Page (index.html)

#### Tasks:

1. Add a heading: **"Welcome to My Student Portal"**
2. Create an **Ordered List** showing your **daily routine**

Example:

- Wake up
- Attend classes
- Study

3. Create an **Unordered List** showing your **hobbies**

Example:

- Reading
- Coding
- Sports

4. Add navigation links to:
  - Timetable page
  - Contact page

## Page 2: Timetable Page (timetable.html)

### Task: Create a Student Timetable Table

Your table must include:

- `<table>` with:
  - `<thead>` → For headings
  - `<tbody>` → For content
- Columns examples:
  - Time
  - Monday
  - Tuesday
  - Wednesday
  - Thursday
  - Friday

### Important Requirements:

- Use `rowspan` (e.g., for a subject covering multiple time slots)
- Use `colspan` (e.g., for lunch break across all days)

Example idea:

- A "Lunch Break" row spanning all columns
- A class spanning two rows

## Page 3: Contact Page (contact.html)

### Part A: Basic Contact Form

Create a form with:

- Name (text input)
- Email (type="email")

- Message (textarea)
- Submit button

## **Part B: Registration Form**

**IMPORTANT: Form MUST be inside a <table>**

Create a **Student Registration Form** using a table layout.

### **Fields Required:**

- Full Name (text)
- Email (type="email", required)
- Password (type="password", required)
- Gender (Radio buttons):
  - Male
  - Female
- Courses (Checkboxes):
  - HTML
  - CSS
  - JavaScript
- Submit button

### **Validation Requirements:**

- Use:
  - required attribute
  - type="email"

### **NB. Structure Requirement**

Use a table like this:

```
<table>
  <tr>
    <td>Full Name:</td>
    <td><input type="text" required></td>
  </tr>
</table>
```
